**Re : Press Release – SMART Appoints Control Union Certification and BSI Group to
Verify Greenpeace Reports**

Dear Sir,

In line with Stipulation No.IV.3 of the Regulation No. I-E regarding Obligation to Submit Information, we are please to attach the press release statement regarding appointment of Control Union Certification (“CUC”) and BSI Group (“BSI”), to conduct a verification relating to sustainable palm oil production in PT SMART Tbk (“the Company”).

The appointment of CUC and BSI would ensure clarity through independent, scientifically sound and certified methods of verification of the issues raised in the Greenpeace reports.

Other than the above, there is no material information or facts relating to the Company that need to be disclosed. Thank you very much for your attention.

Yours sincerely,

Budi Wijana
Vice President Director

SMART Tunjuk Control Union Certification dan BSI Group untuk Verifikasi Laporan Greenpeace

JAKARTA, 1 April 2010 – PT Sinar Mas Agro Resources and Technology Tbk (“SMART”) telah menunjuk Control Union Certification (“CUC”) dan BSI Group (“BSI”), dua badan sertifikasi terdepan Dunia, untuk melakukan verifikasi yang menyeluruh atas laporan Greenpeace baru-baru ini mengenai produksi minyak kelapa sawit yang berkelanjutan. Kedua organisasi tersebut adalah badan sertifikasi yang telah mendapat persetujuan RSPO. Penunjukan CUC dan BSI telah melalui proses yang melibatkan konsultasi dengan Unilever, yang saat ini bertindak sebagai salah satu dewan eksekutif RSPO.

Penunjukan CUC dan BSI dipastikan dapat memberikan kejelasan melalui verifikasi yang independen, ilmiah dan metoda tersertifikasi atas isu-isu yang diangkat dalam laporan Greenpeace.

“Proses verifikasi ini melampaui batas-batas yang dibutuhkan untuk sekedar memverifikasi klaim yang dikeluarkan oleh Greenpeace. Hal ini menunjukkan tidak hanya komitmen kami terhadap produksi minyak kelapa sawit yang berkelanjutan, namun juga peran kami dalam memberikan lapangan pekerjaan dan kontribusi terhadap perkembangan perekonomian Indonesia,” tegas Daud Dharsono, Direktur Utama SMART.

Dharsono menambahkan, “Kami secara terus menerus melakukan evaluasi atas tata kelola yang terbaik sebagai bagian dari komitmen penuh terhadap produksi minyak kelapa sawit yang berkelanjutan. Pada awal Februari, kami telah mengumumkan bahwa kami akan memperkuat rangkaian proses kerja untuk memastikan bahwa kami tidak mengembangkan lahan-lahan dengan kadar karbon tinggi dan nilai konservasi tinggi. Hal ini memberikan jaminan kepada para pemangku kepentingan bahwa kami terus berkomitmen untuk melestarikan hutan primer, lahan gambut serta keaneka ragaman hayati.”

Sebagai produsen minyak kelapa sawit terbesar Indonesia, SMART tunduk dan patuh kepada hukum perundang-undangan Republik Indonesia, konvensi internasional yang telah diratifikasi pemerintah, serta prinsip-prinsip dan kriteria RSPO mengenai produksi minyak kelapa sawit yang berkelanjutan.

SMART Appoints Control Union Certification and BSI Group to Verify Greenpeace Reports

JAKARTA, 1 April 2010 – PT Sinar Mas Agro Resources and Technology Tbk (“SMART”) has appointed Control Union Certification (“CUC”) and BSI Group (“BSI”), two of the world's leading certification bodies, to conduct a thorough verification of the recent Greenpeace reports relating to sustainable palm oil production. Both organizations are Roundtable on Sustainable Palm Oil (“RSPO”) approved certification bodies. The two agencies have been jointly appointed, following consultation with Unilever, who currently chairs the RSPO.

The appointment of CUC and BSI would ensure clarity through independent, scientifically sound and certified methods of verification of the issues raised in the Greenpeace reports.

"This verification goes beyond the need to verify the claims made by Greenpeace. It clearly demonstrates not only our commitment to the sustainable production of palm oil, but also our role in providing much needed employment and contributing to the growth of the Indonesian economy," stated Daud Dharsono, SMART's President Director.

Dharsono added, "We are constantly reviewing our best practices as part of our absolute commitment towards sustainable palm oil production. Early in February, we announced that we would enhance our processes to ensure that we do not develop land with high carbon stock and high conservation value. This assures all stakeholders of our continuing commitment to preserve the primary forests, peat land and high biodiversity."

As the leading Indonesian palm oil producer, SMART complies with all RSPO principles and criteria on sustainable palm oil production as well as complying with the laws and regulations of the Republic of Indonesia and the international conventions that the government has ratified.
