

Sustainable Palm Oil

Multi-stakeholder collaboration

Peter Heng, Managing Director of Communications and Sustainability, Golden Agri-Resources
World Sustainable Agriculture Congress
12 July 2012, Singapore

Disclaimer

This presentation has been prepared by Golden Agri-Resources Ltd (“GAR” or “Company”) for informational purposes.

This presentation contains statements, representation which may or may not be derived from third party reports, quotes from sources other than from within the Company, projections and forward looking statements that reflect the Company’s current views with respect to future events and performances.

All statements and views contained in this presentation are based on current circumstances, practices and assumptions which may change over time, third party reports commissioned by GAR specifically for the purposes of this presentation, third party reports that are readily available and published in the public domain and specific third party reports that have been addressed to the Company and which contents are or is assumed to be in the public domain.

This presentation also contains statements of commitment by the Company to endeavour to perform certain acts pursuant to this presentation. Whereas all such statements are made in good faith and based on the prevailing circumstances that entitle the Company to believe it will perform such commitments, no assurance is or can be given that future events may occur that render the Company unable to perform partially or fully such commitments or vary the performance of such commitments. Nothing in this report may be used in any cause of action for any misrepresentation by the Company.

Opinions expressed herein reflect the judgement of the Company, or the belief by the Company on the reports produced by third parties quoted in this presentation as at the date of this presentation and may be subject to change without notice if the Company becomes aware of any information, whether specific to the Company, its business, or in general, which may have a material impact on any such opinions.

The information is current only as of its date and shall not, under any circumstances, create any implication that the information contained therein is correct as of any time subsequent to the date thereof. In the event any third party quoted in this presentation subsequently amends, varies or otherwise changes its own reports, such reports forming the basis of this presentation, and such third party did not inform the Company of such change of view, GAR shall not be held liable for any information in this presentation that has not been corrected or amended as a result of such changes initiated by such third party.

This presentation may be updated from time to time and notwithstanding anything stated hereabove, there is no undertaking by GAR to post any such amendments, addendum or supplements to this presentation.

The Company will not be responsible for any consequences resulting from the use of this presentation as well as the reliance upon any opinion or statement contained herein or for any omission.

Golden Agri-Resources Ltd (GAR)

- Second largest palm oil plantation company in the world
- Listed on the Singapore Exchange since 1999, market capitalisation of US\$7.6 billion as at 31 March 2012
- Parent company of PT SMART Tbk which is listed on the Indonesia Stock Exchange since 1992
- Integrated operations in China
- Focused on sustainable palm oil production through multi-stakeholder collaboration

Multi-stakeholder Collaboration

Golden Agri-Resources believes that multi-stakeholder collaboration is the only way to achieving solutions for sustainable palm oil production.

GAR Forest Conservation Policy (FCP)

- Builds on GAR's pre-existing commitments.
- GAR's FCP is developed in collaboration with The Forest Trust (TFT) to ensure that GAR has no deforestation footprint. Various stakeholders including Greenpeace have provided inputs.
- FCP focuses on

No development
on peat and
high conservation
value forest areas

No development
on high carbon
stock forests

Free prior
informed
consent

Comply all relevant
laws and
international
certification P&C

GAR Forest Conservation Policy (FCP)

- Holistic approach: Implemented Social and Community Engagement Policy (SCEP) and Yield Improvement Policy (YIP) in collaboration with TFT and other stakeholders.
- Ultimately, the conserved High Carbon Stock (HCS) area can revert to its natural ecological function as a forest.
- Applicable to all the plantations that GAR owns, manages or invests in regardless of the stake.

From conflict to collaboration: Multi-stakeholder engagement

HCS Forest Study Report

- The HCS Forest Study Report was published following the completion of the HCS forest fieldwork conducted under GAR's Forest Conservation Policy.
- The report was presented at the REDD+ Task Force Seminar titled: "We Care, We Share. A Gallery of Good Practices in Land Based Industries: Palm Oil, Mining and Forestry" on 5 June 2012 in Jakarta

GAR sets the bar high in Indonesian deforestation

Blogpost by **Bustar Maitar** - June 6, 2012 at 17:04

1 comment

What seemed unthinkable for some people two years ago is now happening. Golden Agri-Resources (GAR) is leading the way in what could be the starting point for the palm oil industry to phase out deforestation. And instead of hanging banners at its offices, we are collaborating with the company in what is an unprecedented, serious effort towards what GAR describes as a "no deforestation footprint" for palm oil.

Right now, lets take some time to say 'great work'. It doesn't happen every day that such an unconventional partnership bears fruit. GAR's commitment and their progress so far clearly shows that industry and civil society can work together to implement solutions that safeguard the environment, the livelihoods of communities and continued economic growth.
